In fact there are to be the typical soldier of fortune. ual apparatus work by societies, model three or four physicians now in the He was a general in the service of

The Panama flag which flies from Dr. Kennedy has been appointed as the staff of the Orienta consists of an assistant surgeon, but his duties four squares, two of white, one in the cises to-day included the following will be confined almost exclusively to upper left and the other in the lower right hand corner, and two squares, one each of red and blue. In one of the abolishment of the office occurred the white squares there is a single several days ago, as did also the ap- star of blue and in the other white

The Orienta was built originally for E. R. Ladew. Lewis R. Nixon designed her, and she was built at the Elizabethport yards in 1901, at the time of the machinists' strike. Captain Lovelace bought the little vessel for his government for something like \$30,-

The vessel on her trial trips had not come up to the standard, and on an inspection Captain Lovelace found her condenser tubes had been stopped with a mallet. In the water-tube boiler sixteen of the tubes were plugged up with boiler punchings.

"The schemes of the disgruntled machinists to throw back the vessel growth along the Mississippi river tically disabling her worked to my colors III to New Orleans, the bonest" said Cantain Lovelace "for from Cairo, Ill., to News Orleans, the benefit," said Captain Lovelace, "for

The Orienta is 150 feet over all, and draws about 61/2 feet of water. She can make at least twenty knots an hour, and has a 700 horsepower en-She is equipped with electric lights and all conveniences. Most of her light brackets are made
